Gartzke Flowage Cross-Country Ski & Snowshoe Trails

WELCOME to the Gartzke Flowage Recreation Area - Cross Country Ski and Hiking Trails. This trail system is on land owned by Langlade County. It was developed by the Langlade County Forestry Department, Wisconsin DNR, and the Antigo Bike and Ski Club. The trail is groomed and tracked by the Antigo Bike and Ski Club. Snowshoe trails are also available.

The Gartzke Flowage Trail is approximately 6½ miles in length with various loops for all abilities. The area has a diverse topography with high ridges and plateaus that drop sharply in some areas and gradually into the flowage basin in other areas. The flowage divides the property nearly in half but is connected by a 70 foot wooden bridge.

These trails are very scenic and traverse through a Norway Pine plantation, upland hardwood and cedar swamps along the Gartzke Flowage. Due to the topography and hydrology of the area, several spring seeps dot the landscape and add to the natural beauty of the area.

Facilities include a parking area, restrooms, a shelter on the south trail system, and a recreation shelter located near the bridge.

DONATIONS are greatly appreciated to help defray the club costs of grooming and tracking the trail. The donation box is located next to the map case at the start of the trail. Thank You!
