Langlade County Travel Advisory Recommendation – March 24, 2020

Due to the COVID-19 pandemic and the continued spread of the COVID-19 virus in the United States and in Wisconsin, Langlade County Unified Command Team (UCT) has issued a Travel Advisory Recommendation. This decision is consistent with the previous steps taken by Langlade County to control the spread of COVID-19 and is outlined below:

1. Due to high community transmission in certain areas of the State, Langlade County Public Health Officer recommends that travel to seasonal and second homes within Langlade County be refrained due to the limited healthcare infrastructure available within the County.
2. People who have seasonal homes are recommended to stay at your winter homes at this time. If you recently arrived in Langlade County from outside of the County, you are encouraged to self-quarantine for fourteen (14) days in order to help in stopping potential community-to-community spread.
3. People must continue to comply with other applicable restrictions, such as the Wisconsin Governor's various Executive Orders, including his "Safer at Home Order", and the Illinois Governors' "Stay at Home" Order issued to Illinois residents. Illinois "Stay at Home" Order effectively restricts Illinois residents from coming to their second or seasonal home in Langlade County.
4. Langlade County has a high percentage of older adults and vulnerable populations. This high-risk group for COVID-19 is one of the County's priority groups that need protection to keep Langlade County healthy and safe.
5. Langlade County has already taken steps necessary to stop the spread of COVID-19, including Langlade County Board of Supervisors' adoption of a COVID-19 Emergency Declaration. Please be aware that additional health and travel restrictions may be imposed in the future.
6. The COVID-19 pandemic is an ever changing and very serious health situation. Langlade County needs to be diligent in its response to establish restrictions that are particular to the needs of Langlade County's residents.
